

## QUALITY CONTROL

From the outset, we realized that a locally manufactured battery could only succeed if exceptionally high quality standards were maintained. We set our products and our level of service to the highest of standards.

Here at DIXON Batteries, quality control forms an integral part of our manufacturing process. We use the most up-to-date equipment and well trained experienced staff to manufacture batteries that are ISO 9001: 2008 accredited by AfriCert. Our batteries also carry the SABS mark of approval and have a performance and lifespan that will stand proud against any of our competitors.

## MODERN TECHNOLOGY:

At DIXON Batteries, we're committed to an on-going policy of technological improvement. By using only the latest technology, we continue to ensure that we remain competitive in the local market and that our battery assembly technology is of world class standard.

## LOCAL CONTENT:

DIXON Batteries are a proudly South African product. An average motorcar battery contains in excess of 85 components, in excess 90% of a DIXON Battery is made from local components.

## OUR GUARANTEE

DIXON Batteries are guaranteed against failure through faulty workmanship or materials for a period of 12 months for automotive batteries and 3 months for motorcycle batteries, from date of purchase. The battery will be repaired or replaced "free of charge" if it becomes defective within the warranty period. The guarantee does NOT cover neglect, abuse, overcharging or undercharging due to a faulty electrical system. Neither does it cover fitting a battery below the capacity specified in our official and published recommendation, our battery finder app on the Dixon Batteries website, or vehicle manufacturer specifications as original equipment. The use of battery dopes renders the guarantee null and void. The manufacturer will not be responsible for any consequential damage caused directly or indirectly by possible failure or defect of the battery.

Dixon Batteries offers South African customers an option of extending their warranty on their Dixon Premium Passenger Vehicle Battery to 24 months from date of purchase, at no cost to the customer. In order to qualify for the pro-rata warranty, customers must register their Dixon Premium Passenger Vehicle battery on our website or via our mobile app. Terms and Conditions Apply.

Kind Regards

Dixon Management
